#### Sommario/riassunto

This book constitutes the refereed proceedings of the First  
 International Conference on Modeling Decisions for Artificial  
 Intelligence, MDAI 2004, held in Barcelona, Spain in August 2004.;The  
 26 revised full papers presented together with 4 invited papers were  
 carefully reviewed and selected from 53 submissions. The papers are  
 devoted to topics like models for information fusion, aggregation  
 operators, model selection, fuzzy integrals, fuzzy sets, fuzzy multisets,  
 neural learning, rule-based classification systems, fuzzy association  
 rules, algorithmic learning, diagnosis, text categorization, unsupervised  
 aggregation, the Choquet integral, group decision making, preference  
 relations, vague knowledge processing, etc.
