

1. Record Nr.	UNINA9910806194703321
Autore	Hung Jason C
Titolo	Frontier Computing on Industrial Applications Volume 3 : Proceedings of Theory, Technologies and Applications (FC 2023)
Pubbl/distr/stampa	Singapore : , : Springer Singapore Pte. Limited, , 2024 ©2024
ISBN	981-9994-16-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (373 pages)
Collana	Lecture Notes in Electrical Engineering Series ; ; v.1133
Altri autori (Persone)	YenNeil ChangJia-Wei
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Contents -- Application of Parametric Generation Technology in Landscape Architecture Planning and Design -- 1 Introduction -- 2 Related Work -- 2.1 Research on Parametric Design of Landscape Architecture -- 2.2 Landscape Parametric Design -- 3 Advantages of Parametric Design Applied to Landscape Planning and Design -- 4 Application of Parametric Generation Technology in Landscape Architecture Planning and Design -- 5 Conclusion -- References -- Evaluation Method of Skilled Personnel Based on Factor Analysis and BP Neural Network -- 1 Introduction -- 2 Related Work -- 2.1 Trend Analysis of Technical Talents Evaluation -- 2.2 BP neural Network -- 3 Skilled Personnel Evaluation Method Based on Factor Analysis and BP Neural Network -- 4 Training Sample Establishment -- 5 Conclusion -- References -- Design of Oscillation Controller for Camera Damping System Based on Particle Swarm Optimization -- 1 Introduction -- 2 Basic Concepts and Application Advantages of Particle Swarm Optimization -- 2.1 Basic Concepts -- 2.2 Application Advantages -- 2.3 Power System Model Construction -- 2.4 Controller -- 2.5 Algorithm Optimization -- 3 Conclusion -- References -- Research on Summer Bird Investigation and Bird Damage Control in the Substation -- 1 Potential Nesting Birds of Suzhou Power Grid Substation -- 1.1 Outdoor/Semi/Indoor/Indoor Station Type of Substation -- 1.2 The Substation Voltage Level -- 1.3 Location

of the Bird's Nest -- 1.4 Discovery Time of the Nest -- 2 Bird Damage Prevention and Control in the Substation in Summer -- 2.1 "Drive Away" the Birds -- 2.2 Ultrasonic Drive of Birds -- 2.3 Sound Drives Away the Birds -- 2.4 Windmill Mirror to Drive the Bird -- 2.5 "Blocking" the Birds -- 3 Suggestions on Bird Damage Prevention and Control in Substation.

3.1 To Realize the Early Warning of the Hazards of the Substation, and Improve the Control Quality of Poultry Disasters -- 3.2 To Achieve the Comprehensive Application of Various Methods -- 3.3 The System Can Effectively Observe the Bird Activity of Each Site and Provide Reliable Information for Bird Damage Control in the Future -- 4 Conclusion -- References -- Research on Image Processing Algorithm of Placement Machine Component Location Based on Machine Vision -- 1 Introduction -- 2 Related Work -- 2.1 Research and Development Overview of Mounter -- 2.2 Research Contents of Machine Vision System -- 3 Chip Mounter System Composition and Working Principle -- 3.1 Composition of Vision System -- 3.2 Working Process of the Chip Mounter -- 4 Image Processing in Machine Vision System -- 4.1 Image Filtering -- 4.2 Threshold Segmentation -- 5 Conclusion -- References -- Research on Automatic Test System of Optoelectronic Equipment Based on PC Bus and GPIB Bus -- 1 Introduction -- 2 Related Work -- 2.1 Development Process of Automatic Test System -- 2.2 Status Quo of Photoelectric Equipment Testing System -- 3 Establishment of Photoelectric Equipment -- 4 Automatic Test System for Photoelectric Equipment Based on PC Bus and GPIB Bus -- 4.1 Structure and Characteristics of Automatic Test System -- 4.2 Automatic Test System Architecture of Photoelectric Equipment -- 5 Conclusion -- References -- Application of AHP Algorithm Based on Data Mining in Higher Education Teaching Evaluation System -- 1 Introduction -- 2 Related Work -- 2.1 Problems in the Current Teaching Quality Evaluation System -- 2.2 Technical Principle of Multi-level Fuzzy Evaluation -- 3 AHP Algorithm Design -- 3.1 Overview and Workflow of AHP Algorithm -- 3.2 Construct Pairwise Comparison Judgment Matrix -- 4 AHP Algorithm Based on Data Mining in Higher Education Teaching Evaluation System.

5 Conclusion -- References -- Optimization Design of Optical Film System Based on Ant Colony Algorithm -- 1 Introduction -- 2 Related Work -- 2.1 Overview of Optical Film Design Methods -- 2.2 Introduction to Popular Algorithms for Optical Film Design -- 3 Ant Colony Algorithm -- 4 Optimization Design of Optical Film System Based on Ant Colony Algorithm -- 5 Conclusion -- References -- Multi View Reconstruction Algorithm of Subway Space Design Based on Virtual Reality Fusion Technology -- 1 Introduction -- 2 Related Work -- 2.1 Concept of Subway Space -- 2.2 Characteristics of Subway Space -- 3 Multi View Reconstruction Algorithm of Subway Space Design Based on Virtual Reality Fusion Technology -- 3.1 Image Based 3D Reconstruction Theory -- 3.2 Metro Space Design Based on Virtual Reality Fusion Technology -- 4 Conclusion -- References -- Multi-objective Optimal Control of Wastewater Treatment Process Based on Neural Network -- 1 Introduction -- 2 Related Work -- 2.1 Research Status of Sewage Treatment Control -- 2.2 Status Quo of Sewage Treatment Control Objects -- 3 Multi Objective Optimal Control Method of Sewage Treatment Process Based on Neural Network -- 4 Real Time Optimal Control Scheme for Sewage Treatment Process -- 4.1 Real Time Optimal Control -- 4.2 Real Time Optimization Layer -- 5 Conclusion -- References -- Research on Reactive Power Optimization Control of Distribution Network with Distributed Generation Based on Genetic Algorithm -- 1 Introduction -- 2 Related Work -- 2.1

Current Status of Power Grid Distribution Planning -- 2.2 Overview of Genetic Algorithms -- 3 Research on Reactive Power Optimization Control of Distribution Network -- 4 Grid Operation Optimization Strategy -- 5 Conclusion -- References -- Automatic Retrieval of UAV Tilt Image and Image Attitude Recovery -- 1 Introduction -- 2 Related Work.

2.1 Automatic Image Matching -- 2.2 UAV Tilt Photogrammetric Data Processing -- 3 Automatic Retrieval of UAV Tilt Image and Image Attitude Recovery -- 4 Simulation Analysis -- 5 Conclusion -- References -- QSBR Prediction Model for Anaerobic Biodegradation of Chemicals -- 1 Introduction -- 2 Related Work -- 2.1 Basic Principles of Anaerobic Biotechnology -- 2.2 Research Progress of Anaerobic Biotechnology -- 3 QSBR Prediction Model of Anaerobic Biodegradation -- 4 Anaerobic Biodegradation of Chemicals Based on QSBR Prediction Model -- 5 Conclusion -- References -- Laser Cleaning Technology of Ultra-thin Deposition Layer on the Surface of Disconnecting Moving and Stationary Contacts -- 1 Introduction -- 2 Related Work -- 2.1 Development History of Laser Cleaning Technology -- 2.2 Principle of Laser Cleaning Machine -- 3 Laser Cleaning Technology for Ultra-thin Deposition Layer on the Surface of Movable Disconnectors -- 4 Brief Introduction of Cleaning Equipment for Ultra-thin Deposition Layer of High-Voltage Disconnecting Contact -- 5 Conclusion -- References -- Research on the Technology of Laser Derusting and Design of Portable Laser Derusting System -- 1 Introduction -- 2 Related Work -- 2.1 Development and Status Quo of Laser Cleaning Technology -- 2.2 Research Status of Laser Cleaning Mechanism -- 3 Laser Derusting Mechanism -- 4 Design of Laser Rust Removal System -- 5 Conclusion -- References -- Laser Far-Field Focal Spot Measurement Method Based on Multi-step Phase Recovery -- 1 Introduction -- 2 Related Work -- 2.1 Laser Far-Field Focal Spot -- 2.2 Laser Beam Characterization -- 3 Laser Far-Field Focal Spot Based on Multi-step Phase Recovery -- 4 Simulation Analysis -- 5 Conclusion -- References -- Application of Computer Algorithm in Fault Diagnosis System of Rotating Machinery -- 1 Introduction -- 2 Related Work. 2.1 Overview of Data Asset Management -- 2.2 Data Processing Flow of Power Equipment -- 3 Fault Diagnosis System -- 3.1 Current Situation of Data Management Platform in Power Enterprises -- 3.2 Data Platform and Architecture -- 4 Research on Power Equipment Fault Diagnosis Model Based on Machine Learning -- 5 Conclusion -- References -- Complex Network Community Discovery Algorithms Based on Node Similarity and Network Embeddings -- 1 Introduction -- 1.1 Network Embedding -- 1.2 Node Similarity -- 2 Complex Network Community Discovery Based on the Similarity of Network Embedding Methods and Nodes -- 2.1 Problem Description -- 2.2 The S N V Algorithm Framework -- 2.3 Preference Network -- 2.4 Central Node Selection Policy -- 3 Numerical Simulation -- 3.1 Evaluation Indicators -- 3.2 Artificial Network -- 4 Conclusion -- References -- Education Dynamic Early Warning System Based on Collaborative Filtering Algorithm -- 1 Introduction -- 2 Research on Education Dynamic Early Warning System Based on Collaborative Filtering Algorithm -- 3 Design Experiment of Educational Dynamic Early Warning System Based on Collaborative Filtering Algorithm -- 4 Experimental Analysis of Educational Dynamic Early Warning System Based on Collaborative Filtering Algorithm -- 5 Conclusions -- References -- Research on Secure and Encrypted Transmission Method of Electric Power Data Based on National Security Algorithm -- 1 Introduction -- 2 Related Work -- 2.1 Research Status of Power Data Network Information Security -- 2.2 Research and Development of Information Security

Technology Application in Power System -- 3 National Secret Algorithm
-- 4 Power Data Security Encryption Transmission Based on National
Security Algorithm -- 5 Conclusion -- References -- Improvement
and Simulation of PID Model Predictive Control Algorithm Based
on Time Domain -- 1 Introduction.
2 Basic Principle of Model Predictive Control Algorithm.
