

1. Record Nr.	UNINA9910806195003321
Autore	Giannoudis Peter V
Titolo	Failed Fracture Fixation : Revision Surgery Made Easy // edited by Peter V. Giannoudis, Paul Tornetta III
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2024
ISBN	3-031-39692-8
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (465 pages)
Altri autori (Persone)	Tornetta III Paul
Disciplina	617.47
Soggetti	Orthopedic surgery Orthopedics Surgical Orthopedics Orthopaedics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part A: General Considerations -- Incidence of failure following fracture fixation -- Common causes of fixation failure -- Nails -- Plates -- Frames -- Analysis of failure-A step wise approach -- Biology: metabolic workup -- Infection workup -- Evaluation of mechanical failure -- Malalignment -- Fixation construct -- Compliance issues -- Part B: An Anatomical Case Based Approach -- Acromioclavicular joint dislocation -- Clavicle fracture -- Humeral head fracture -- Humeral neck fracture -- Humeral shaft fracture -- Distal humerus fracture -- Olecranon fracture -- Coronoid fracture -- Radial head and neck fracture -- Terrible Triad -- Forearm fracture -- Distal Radius metaphyseal fracture -- Distal radius: Volar Bartons -- Distal radius: Dorsal Failure -- Scaphoid fracture -- Perilunate dislocation -- Bennett's fracture -- Cervical spine fracture -- Thoracic spine fracture -- dislocation -- Lumbar spine fracture -- dislocation -- Spino pelvic dissociation -- Pelvic lateral compression fracture -- Pelvic open book injury -- Pelvic vertical shear injury -- Sacral fracture -- Acetabulum fracture(s) -- Intracapsular Femoral neck fracture -- Extracapsular proximal femoral fractures -- Femoral shaft (Sub trochanteric, mid-shaft) -- Distal femur (native and periprosthetic) -- Patella fracture -- Tibial plateau fracture unicondylar -- Fracture dislocation of tibial

plateau -- Proximal tibial shaft -- Distal tibia extra-articular/intraarticular -- Ankle fracture (Bimalleolar- Trimaleolar) -- Ankle fracture (posterior malleolus) -- Talar fracture -- Os calcis fracture -- Lisfranc fracture dislocation. .

Sommario/riassunto

This first edition text book describes applicable step-wise approaches to successfully manage patients with failed fracture fixation. Cases are presented for a range of anatomical sites focusing on the aetiology of the failure, clinical examination along with the necessary investigations required for the initial patient assessment, pre-operative planning and its successful execution. Emphasis is placed on detailing when the timing of an intervention is required. A "tips and tricks" section is provided in each chapter enabling the reader to familiarize themselves with potential pitfalls associated with each technique covered and further develop their understanding of the content covered. Failed Fracture Fixation: Revision Surgery Made Easy is a comprehensive practically applicable guide to understand the aetiology of failure and to become familiar on how to use a range of relevant surgical techniques in a variety of anatomical sites to provide the patient with optimum conditions for a successful clinical and functional outcome. Therefore, it is an essential resource for trainee and practicing orthopedic surgeons seeking up-to-date guidance on how to apply the latest methodologies into their daily practice. .
