Sommario/riassunto	Thirty-three million people in the United States speak some variety of Spanish, making it the second most used language in the country. Some of these people are recent immigrants from many different countries who have brought with them the linguistic traits of their homelands, while others come from families who have lived in this country for hundreds of years. John M. Lipski traces the importance of the Spanish language in the United States and presents an overview of the major varieties of Spanish that are spoken there. Varieties of Spanish in the United States provides in a single volume
