Sommario/riassunto

Autonomy and Identity are key concepts in both political and feminist thought and have played central roles in both fields. Although there has been much academic work on both concepts there has arguably been little that has addressed the connections between autonomy and identity. *Autonomy and Identity* seeks to draw innovative links between these concepts in order to develop a new understanding which sees autonomy as a process by which we change and develop our identity. It draws on thinkers from the canon of political thought such as G.W.F. Hegel, Mary Wollstonecraft
