

1.	Record Nr.	UNISALENTO991003399309707536
	Autore	Pasquini, Emilio <1935- >
	Titolo	Le botteghe della poesia : studi sul Tre-Quattrocento italiano / Emilio Pasquini
	Pubbl/distr/stampa	Bologna : Il Mulino, c1991
	Descrizione fisica	408 p. ; 22 cm
	Collana	Ricerca
	Disciplina	851.1
	Soggetti	Poesia italiana - Studi critici
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910828390803321
	Autore	Parmenter David
	Titolo	Key performance indicators : developing, implementing, and using winning KPIs // David Parmenter
	Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley, , 2015 ©2015
	ISBN	1-119-01985-0 1-119-01984-2
	Edizione	[Third edition.]
	Descrizione fisica	1 online resource (444 p.)
	Disciplina	658.4/013
	Soggetti	Performance technology Performance standards Organizational effectiveness Eficàcia organitzativa Valoració d'empreses Llibres electrònics
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia

## Note generali

Includes index.

## Nota di contenuto

Cover; Title Page; Copyright; Contents; About the Author; Preface; Acknowledgments; Part I Setting the Scene; Chapter 1 The Great KPI Misunderstanding; Key Result Indicators; Result Indicators; Performance Indicators; Key Performance Indicators; Seven Characteristics of KPIs; Difference between KRIs and KPIs and RIs and PIs; Lead and Lag Confusion; Number of Measures Required-The 10/80/10 Rule; Importance of Timely Measurement; Where Are You in Your Journey with Performance Measures?; Notes; Chapter 2 The Myths of Performance Measurement; Myth #1: Most Measures Lead to Better Performance  
Myth #2: All Measures Can Work Successfully in Any Organization, At Any Time Myth #3: All Performance Measures Are KPIs; Myth #4: By Tying KPIs to Remuneration You Will Increase Performance; Myth #5: We Can Set Relevant Year-End Targets; Myth #6: Measuring Performance Is Relatively Simple and the Appropriate Measures Are Obvious; Myth #7: KPIs Are Financial and Nonfinancial Indicators; Myth #8: You Can Delegate a Performance Management Project to a Consulting Firm; The Myths Around the Balanced Scorecard; Notes; Chapter 3 Unintended Consequence: The Dark Side of Measures  
Example: City Train Service Example: Accident and Emergency Department; Examples from Dean Spitzer's Book; Performance-Related Pay; Dysfunctional Performance Measures Checklist; Notes; Chapter 4 Revitalizing Performance; Five Foundation Stones; The Many Facets of Performance Management; Notes; Chapter 5 Strategy and Its Relevance to Performance Measures; Articulate Your Organization's Mission, Vision, Values, and Lean Management Principles; Create a Strategy That Is Understood by Staff; Ensure That Your Strategy Is Balanced; Monitor Implementation of Your Strategy; Creating the Future; Notes  
Part II Winning KPI Methodology Chapter 6 Background to the Winning KPI Methodology and Its Migration; The Original 12-Step Process; The New Six-Stage Process; Winning KPI Methodology and Its Migration; An Overview of the Six Stages; Chapter 7 Foundation Stones for Implementing Key Performance Indicators; ""Partnership with the Staff, Unions, and Third Parties" Foundation Stone; ""Transfer of Power to the Front Line" Foundation Stone; ""Measure and Report Only What Matters" Foundation Stone; ""Source KPIs from the Critical Success Factors" Foundation Stone  
""Abandon Processes That Do Not Deliver" Foundation Stone""  
Appointment of a Home-Grown Chief Measurement Officer" Foundation Stone; ""Organization-Wide Understanding of the Winning KPIs Definition" Foundation Stone; Notes; Chapter 8 Getting the CEO and Senior Management Committed to the Change (Stage 1); Obtaining Senior Management Team Commitment; Agree on Timing, Resources, and Approach; Benefits of This Stage; Templates and Checklists; Notes; Chapter 9 Up-Skill In-House Resources to Manage the KPI Project (Stage 2); Establish a Winning KPI Team Working Full Time on the Project  
Establish a Just-Do-It Culture and Process

## Sommario/riassunto

Streamline KPIs to craft a simpler, more effective system of performance measurement Key Performance Indicators provides an in-depth look at how KPIs can be most effectively used to assess and drive organizational performance. Now in its third edition, this bestselling guide provides a model for simplifying KPIs and avoiding the pitfalls ready to trap the unprepared organization. New information includes guidance toward defining critical success factors, project

leader essentials, new tools including worksheets and questionnaires, and real-world case studies that illustrate the practical ap

3. Record Nr.	UNINA9910806817303321
Autore	Hollander Myles

Edizione	[Third edition.]
Descrizione fisica	1 online resource (844 pages)
Collana	Wiley series in probability and statistics
Classificazione	MAT029000
Altri autori (Persone)	ChickenEric <1963-> WolfeDouglas A
Disciplina	519.5/3
Soggetti	Nonparametric statistics Mathematical statistics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Cover -- Title Page -- Contents -- Preface -- Chapter 1 Introduction -- 1.1. Advantages of Nonparametric Methods -- 1.2. The Distribution-Free Property -- Distribution-Free Test Statistic -- 1.3. Some Real-World Applications -- 1.4. Format and Organization -- Procedure -- Large-Sample Approximation -- Ties -- Example -- Comments -- Properties -- Problems -- Efficiency -- 1.5. Computing with R -- 1.6. Historical Background -- Chapter 2 The Dichotomous Data Problem -- Introduction -- 2.1. A Binomial Test -- Procedure --

Large-Sample Approximation -- Comments -- Properties -- Problems  
 -- 2.2. An Estimator for the Probability of Success -- Procedure --  
 Properties -- Problems -- 2.3. A Confidence Interval for the Probability  
 of Success (Wilson) -- Procedure -- Properties -- Problems -- 2.4.  
 Bayes Estimators for the Probability of Success -- Procedure --  
 Comments -- Properties -- Problems -- Chapter 3 The One-Sample  
 Location Problem -- Introduction -- Paired Replicates Analyses by Way  
 of Signed Ranks -- 3.1. A Distribution-Free Signed Rank Test  
 (Wilcoxon) -- Hypothesis -- Procedure -- Large-Sample Approximation  
 -- Ties -- Comments -- Properties -- Problems -- 3.2. An Estimator  
 Associated with Wilcoxon's Signed Rank Statistic (Hodges-Lehmann) --  
 Procedure -- Comments -- Properties -- Problems -- 3.3. A  
 Distribution-Free Confidence Interval Based on Wilcoxon's Signed Rank  
 Test (Tukey) -- Procedure -- Large-Sample Approximation --  
 Comments -- Properties -- Problems -- Paired Replicates Analyses by  
 Way of Signs -- 3.4. A Distribution-Free Sign Test (Fisher) --  
 Hypothesis -- Procedure -- Large-Sample Approximation -- Ties --  
 Comments -- Properties -- Problems -- 3.5. An Estimator Associated  
 with the Sign Statistic (Hodges-Lehmann) -- Procedure -- Comments  
 -- Properties -- Problems.  
 3.6. A Distribution-Free Confidence Interval Based on the Sign Test  
 (Thompson, Savur) -- Procedure -- Large-Sample Approximation --  
 Comments -- Properties -- Problems -- One-Sample Data -- 3.7.  
 Procedures Based on the Signed Rank Statistic -- Procedures --  
 Comments -- Properties -- Problems -- 3.8. Procedures Based on the  
 Sign Statistic -- Procedures -- Comments -- Properties -- Problems --  
 3.9. An Asymptotically Distribution-Free Test of Symmetry (Randles-  
 Fligner-Policello-Wolfe, Davis-Quade) -- Hypothesis -- Procedure --  
 Ties -- Comments -- Properties -- Problems -- Bivariate Data -- 3.10.  
 A Distribution-Free Test for Bivariate Symmetry (Hollander) --  
 Hypothesis -- Procedure -- Comments -- Properties -- Problems --  
 3.11. Efficiencies of Paired Replicates and One-Sample Location  
 Procedures -- Chapter 4 The Two-Sample Location Problem --  
 Introduction -- 4.1. A Distribution-Free Rank Sum Test (Wilcoxon,  
 Mann and Whitney) -- Hypothesis -- Procedure -- Large-Sample  
 Approximation -- Ties -- The Mann-Whitney Statistic -- Comments --  
 Properties -- Problems -- 4.2. An Estimator Associated with Wilcoxon's  
 Rank Sum Statistic (Hodges-Lehmann) -- Procedure -- Comments --  
 Properties -- Problems -- 4.3. A Distribution-Free Confidence Interval  
 Based on Wilcoxon's Rank Sum Test (Moses) -- Procedure -- Large-  
 Sample Approximation -- Comments -- Properties -- Problems -- 4.4.  
 A Robust Rank Test for the Behrens-Fisher Problem (Fligner-Policello)  
 -- Hypothesis -- Procedure -- Large-Sample Approximation -- Ties --  
 Comments -- Properties -- Problems -- 4.5. Efficiencies of Two-  
 Sample Location Procedures -- Chapter 5 The Two-Sample Dispersion  
 Problem and Other Two-Sample Problems -- Introduction -- 5.1. A  
 Distribution-Free Rank Test for Dispersion-Medians Equal (Ansari-  
 Bradley) -- Hypothesis -- Procedure -- Large-Sample Approximation  
 -- Ties -- Comments -- Properties.  
 Problems -- 5.2. An Asymptotically Distribution-Free Test for  
 Dispersion Based on the Jackknife-Medians Not Necessarily Equal  
 (Miller) -- Hypothesis -- Procedure -- Ties -- Comments -- Properties  
 -- Problems -- 5.3. A Distribution-Free Rank Test for Either Location  
 or Dispersion (Lepage) -- Hypothesis -- Procedure -- Large-Sample  
 Approximation -- Ties -- Comments -- Properties -- Problems -- 5.4.  
 A Distribution-Free Test for General Differences in Two Populations  
 (Kolmogorov-Smirnov) -- Hypothesis -- Procedure -- Large-Sample  
 Approximation -- Ties -- Comments -- Properties -- Problems -- 5.5.

Efficiencies of Two-Sample Dispersion and Broad Alternatives  
 Procedures -- Chapter 6 The One-Way Layout -- Introduction --  
 Hypothesis -- 6.1. A Distribution-Free Test for General Alternatives  
 (Kruskal-Wallis) -- Procedure -- Large-Sample Approximation -- Ties  
 -- Comments -- Properties -- Problems -- 6.2. A Distribution-Free  
 Test for Ordered Alternatives (Jonckheere-Terpstra) -- Procedure --  
 Large-Sample Approximation -- Ties -- Comments -- Properties --  
 Problems -- 6.3. Distribution-Free Tests for Umbrella Alternatives  
 (Mack-Wolfe) -- 6.3A. A Distribution-Free Test for Umbrella  
 Alternatives, Peak Known (Mack-Wolfe) -- Procedure -- Large-Sample  
 Approximation -- Ties -- Comments -- Properties -- Problems -- 6.3  
 B. A Distribution-Free Test for Umbrella Alternatives, Peak Unknown  
 (Mack-Wolfe) -- Procedure -- Ties -- Comments -- Problems -- 6.4. A  
 Distribution-Free Test for Treatments Versus a Control (Fligner-Wolfe)  
 -- Procedure -- Large-Sample Approximation -- Ties -- Comments --  
 Properties -- Problems -- Rationale For Multiple Comparison  
 Procedures -- 6.5. Distribution-Free Two-Sided All-Treatments  
 Multiple Comparisons Based on Pairwise Rankings-General  
 Configuration (Dwass, Steel, and Critchlow-Fligner) -- Procedure --  
 Large-Sample Approximation -- Ties.  
 Comments -- Properties -- Problems -- 6.6. Distribution-Free One-  
 Sided All-Treatments Multiple Comparisons Based on Pairwise  
 Rankings-Ordered Treatment Effects (Hayter-Stone) -- Procedure --  
 Large-Sample Approximation -- Ties -- Comments -- Properties --  
 Problems -- 6.7. Distribution-Free One-Sided Treatments-Versus-  
 Control Multiple Comparisons Based on Joint Rankings (Nemenyi,  
 Damico-Wolfe) -- Procedure -- Large-Sample Approximations -- Ties  
 -- Comments -- Properties -- Problems -- 6.8. Contrast Estimation  
 Based on Hodges-Lehmann Two-Sample Estimators (Spjotvoll) --  
 Procedure -- Comments -- Properties -- Problems -- 6.9.  
 Simultaneous Confidence Intervals for All Simple Contrasts (Critchlow-  
 Fligner) -- Procedure -- Large-Sample Approximation -- Comments --  
 Properties -- Problems -- 6.10. Efficiencies of One-Way Layout  
 Procedures -- Chapter 7 The Two-Way Layout -- Introduction --  
 Hypothesis -- 7.1. A Distribution-Free Test for General Alternatives in  
 a Randomized Complete Block Design (Friedman, Kendall-Babington  
 Smith) -- Procedure -- Large-Sample Approximation -- Ties --  
 Comments -- Properties -- Problems -- 7.2. A Distribution-Free Test  
 for Ordered Alternatives in a Randomized Complete Block Design (Page)  
 -- Procedure -- Large-Sample Approximation -- Ties -- Comments --  
 Properties -- Problems -- Rationale for Multiple Comparison  
 Procedures -- 7.3. Distribution-Free Two-Sided All-Treatments  
 Multiple Comparisons Based on Friedman Rank Sums-General  
 Configuration (Wilcoxon, Nemenyi, McDonald-Thompson) -- Procedure  
 -- Large-Sample Approximation -- Ties -- Comments -- Properties --  
 Problems -- 7.4. Distribution-Free One-Sided Treatments Versus  
 Control Multiple Comparisons Based on Friedman Rank Sums (Nemenyi,  
 Wilcoxon-Wilcox, Miller) -- Procedure -- Large-Sample Approximation  
 -- Ties -- Comments -- Properties -- Problems.  
 7.5. Contrast Estimation Based on One-Sample Median Estimators  
 (Doksum) -- Procedure -- Comments -- Properties -- Problems --  
 Incomplete Block Data-Two-Way Layout with Zero or One Observation  
 Per Treatment-Block Combination -- 7.6. A Distribution-Free Test for  
 General Alternatives in a Randomized Balanced Incomplete Block  
 Design (BIBD) (Durbin-Skillings-Mack) -- Procedure -- Large-Sample  
 Approximation -- Ties -- Comments -- Properties -- Problems -- 7.7.  
 Asymptotically Distribution-Free Two-Sided All-Treatments Multiple  
 Comparisons for Balanced Incomplete Block Designs (Skillings-Mack)

-- Procedure -- Ties -- Comments -- Properties -- Problems -- 7.8. A Distribution-Free Test for General Alternatives for Data From an Arbitrary Incomplete Block Design (Skillings-Mack) -- Procedure -- Large-Sample Approximation -- Ties -- Comments -- Properties -- Problems -- Replications-Two-Way Layout with at Least One Observation for Every Treatment-Block Combination -- 7.9. A Distribution-Free Test for General Alternatives in a Randomized Block Design with an Equal Number  $c > 1$  of Replications Per Treatment-Block Combination (Mack-Skillings) -- Procedure -- Large-Sample Approximation -- Ties -- Comments -- Properties -- Problems -- 7.10. Asymptotically Distribution-Free Two-Sided All-Treatments Multiple Comparisons for a Two-Way Layout with an Equal Number of Replications in Each Treatment-Block Combination (Mack-Skillings) -- Procedure -- Ties -- Comments -- Properties -- Problems -- Analyses Associated with Signed Ranks -- 7.11. A Test Based on Wilcoxon Signed Ranks for General Alternatives in a Randomized Complete Block Design (Doksum) -- Procedure -- Ties -- Comments -- Properties -- Problems -- 7.12. A Test Based on Wilcoxon Signed Ranks for Ordered Alternatives in a Randomized Complete Block Design (Hollander) -- Procedure -- Ties -- Comments. Properties.

---

### Sommario/riassunto

"Written by leading statisticians, this new edition has been completely updated to include additional modern topics and procedures, more real-world data sets, and more problems from real-life situations. Incorporating the R software program, this user-friendly book provides readers with an arsenal of nonparametric techniques, helping them develop the insight needed to choose appropriate procedures for various situations. It features five new chapters with added-on topics including Density Estimation, Kernel Regression, Nonparametric Regression, Ranked-Set Sampling, and Bayesian Nonparametrics"-- "In this third edition we have improved the eleven chapters of the second edition and added five new chapters. Also organized all of the R programs used in this third edition into a documented collection that is formally registered as an R package specifically linked to this third edition. "--
