Sommario/riassunto

In an important new application of sociological theories, Nadia Y. Flores-Yeffal offers fresh insights into the ways in which social networks function among immigrants who arrive in the United States from Mexico without legal documentation. She asks and examines important questions about the commonalities and differences in networks for this group compared with other immigrants, and she identifies "trust" as a major component of networking among those who have little if any legal protection. Revealing the complexities behind social networks of international migration, *Migration-*
