

1. Record Nr.	UNINA9910806964603321
Autore	IAEA
Titolo	Methodologies for Seismic Soil–Structure Interaction Analysis in the Design and Assessment of Nuclear Installations
Pubbl/distr/stampa	Vienna : , : IAEA, , 2022 ©2022
ISBN	1-5231-5004-1 92-0-143021-3
Descrizione fisica	1 online resource (196 pages)
Collana	IAEA TECDOC Series ; ; v.1990
Disciplina	363.3495
Soggetti	Earthquake hazard analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Presents soil-structure interaction (SSI) phenomena and current practices in SSI modelling, simulation methodology and analysis methods for the design and assessment of nuclear installations.
