1.	Record Nr.	UNINA9910807013603321
	Titolo	Valency : theoretical, descriptive and cognitive issues / / edited by Thomas Herbst, Katrin Gotz-Votteler
	Pubbl/distr/stampa	Berlin ; ; New York, : Mouton de Gruyter, c2007
	ISBN	1-282-19454-2
		9786612194542
		3-11-019877-0
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (406 p.)
	Collana	Trends in linguistics. Studies and monographs, , 1861-4302 ; ; 187
	Classificazione	ET 440
	Altri autori (Persone)	HerbstThomas
		Gotz-VottelerKatrin <1975->
	Disciplina	415
	Soggetti	Dependency grammar
		Cognitive grammar
		Contrastive linguistics
		Computational linguistics
		Semantics
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and indexes.
	Nota di contenuto	The scope of valency in grammar / Peter Matthews -- Valency complements or valency patterns? / Thomas Herbst -- Describing semantic valency / Katrin Gotz-Votteler -- The status of valency patterns / Lene Schsler -- Verb valency patterns, constructions and grammaticalization / Dirk Noel -- Aspects of a diachronic valency syntax of German / Mechthild Habermann -- The valency of experiential and evaluative adjectives / Ilka Mindt -- Valency rules? The case of verbs with propositional complements / Michael Klotz -- Valency issues in FrameNet / Charles J. Fillmore -- Valency and cognition--a notion in transition / Gert Rickheit and Lorenz Sichelschmidt -- Valency grammar in mind / Rudolf Emons -- The acquisition of argument structure / Heike Behrens -- Valency and the errors of learners of English and German / Ian Roe -- Temporary ambiguity of German and English term complements / Klaus Fischer -- Sentence patterns and perspective in English and German / Irene Ickler -- Contrasting valency in English and German / Brigitta Mittmann --

Valency in a contrastive perspective : structure and use / Stig Johansson -- Valency and automatic syntactic and semantic analysis / Dieter Gotz -- Handling valency and coordination in Database Semantics / Roland Hausser -- Pronominal clitics and valency in Albanian : a computational linguistics perspective and modelling within the LAG-framework / Besim Kabashi -- The practical use of valencies in the Erlangen speech dialogue system CONALD / Gunther Gorz and Bernd Ludwig -- Valency data for Natural Language Processing : what can the Valency Dictionary of English provide? / Ulrich Heid.

Sommario/riassunto	In recent years, research on valency has led to important insights into the nature of language. Some of these findings are published in this volume for the first time with up-to-date accounts of language description and new reflections on language, above all for English and German. The volume also presents examples of contrastive analysis, which are of use for all those who deal professionally with these two languages. Furthermore, the articles in the psycholinguistic and computational linguistics section demonstrate the applicability and value of valency theory for these approaches and shed light on a fruitful cooperation between theoretical and descriptive linguistics and applied disciplines. The papers cover the following aspects of valency analysis: (i) theoretical aspects of the valency approach in relation to related theories of complementation (dependency syntax, FrameNet, case roles), (ii) descriptive aspects of valency and complementation, (iii) valency as a concept for the description of cognitive processes in syntactic processing, (iv) contrastive aspects of valency, above all for English and German, and (v) possible computational applications of the valency concept in fields such as automatic syntactic recognition or language processing. The volume combines papers of representatives from different linguistic schools on the topic of complementation. One of the aims is to show how concepts developed for the analysis of one language, in the case of valency often German, can be applied to other languages such as English.
