Nota di contenuto	The global repercussions of the recession and fiscal crisis How the current crisis differs from those of the past The reaction to the fiscal crisis in the US The fiscal crisis as it affects the European Union and the rest of the world Some alternative outlooks to the fiscal crisis A look at the world order as it exists in today's world The creation of a new world order The EU model EU as a guide A look at a new world order based on international institutions.
Sommario/riassunto	The crisis facing the United States is both economic and political, and its effects are felt both at home and abroad. The author presents a detailed look at how the present world order is or could be affected by a total global economic collapse. He asks whether a world governance system is feasible and desirable, and explores what forms such a system might take, depending upon whether such players as China, the Russian Federation and the Islamic nations continue to make economic progress or suffer setbacks.
