CHINA'S INTEGRATION INTO THE GLOBAL ECONOMY; NOTES; REFERENCES; INDEX Sommario/riassunto Choice Outstanding Academic Title 2009! In its quarter-century-long

shift from communism to capitalism, China has transformed itself from

a desperately poor nation into a country with one of the fastest-

growing and largest economies in the world. Doug Guthrie examines the reforms driving the economic genesis in this compact and highly readable introduction to contemporary China. He highlights the social, cultural and political factors fostering this revolutionary change and interweaves a broad structural analysis with a consideration of social changes at the micro and macro levels.</
