Hassan.

Sommario/riassunto

"With its new political and cultural affiliations with the Middle East and the renewed visibility of the country's millions of practicing Muslims and those with Middle Eastern roots, Brazil may offer valuable lessons for countries transformed by the "Arab Spring." This groundbreaking collection reveals the historical links between these two world regions, describes the emergence of new South-South solidarities, and offers new methodologies for the study of transnationalism, global culture, and international relations"--
