Sommario/riassunto

The book provides an up-to-date analysis of the restructuring of public service employment relations in six European countries: Germany, France, Italy, Spain, Denmark and the UK. Each of the chapters on national systems is organized around a set of themes and policy issues including: the impact of fiscal crises, and increasing macro-economic integration within the European Union, on the scope and organization of public services changes in the patterns and status of public service employment the shift from centralized administration to new models of devolved management changes in the
