Sommario/riassunto	Since being established in 1949 - and especially since the reform and opening up 30 years ago - China has experienced the most drastic changes ever in its 5000-year history. During this period, China has transformed from an agricultural society into an emerging, dynamic, and industrialized nation and has undergone rapid urbanization. The standard of living of the Chinese continues to rise and is taking rapid strides forward to a higher level of comprehensive well-being. China's development over the past 60 years has indicated that the livelihood of the people is a key factor in economic and so
