Sommario/riassunto

This collection of twenty-four original essays by leading scholars in American women's history highlights the most recent important scholarship on the key debates and future directions of this popular and contemporary field. Covers the breadth of American Women's history, including the colonial family, marriage, health, sexuality, education, immigration, work, consumer culture, and feminism. Surveys and evaluates the best scholarship on every important era and topic. Includes expanded bibliography of titles to guide further research.
