Sommario/riassunto	For some observers, nuclear arms control is either a relic of the cold war, or a utopian dream about a denuclearized planet decades in the future. But, as Brookings scholars Steven Pifer and Michael O'Hanlon argue in <i>The Opportunity</i> , arms control can address some key security challenges facing Washington today and enhance both American and global security.Pifer and O'Hanlon make a compelling case for further arms control measures-to reduce the nuclear threat to the United States and its allies, to strengthen strategic stability, to promote greater transparency regarding secre
