

1. Record Nr.	UNINA9910807689303321
Titolo	Modern earth buildings : materials, engineering, construction and applications // edited by Matthew R. Hall, Rick Lindsay and Meror Krayenhoff
Pubbl/distr/stampa	Oxford, : Woodhead Pub Ltd., 2012
ISBN	1-62870-379-2 0-85709-616-8
Edizione	[1st edition]
Descrizione fisica	1 online resource (809 p.)
Collana	Woodhead publishing series in energy, , 2044-9364 ; ; no. 33
Altri autori (Persone)	HallMatthew R LindsayRick KrayenhoffMeror
Disciplina	693.2
Soggetti	Earth construction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Introduction to modern earth buildings -- pt. 2. Earth materials engineering and earth construction -- pt. 3. Earth building technologies and earth construction techniques -- pt. 4. Modern earth structural engineering -- pt. 5. Application of modern earth construction : international case studies.
Sommario/riassunto	The construction of earth buildings has been taking place worldwide for centuries. With the improved energy efficiency, high level of structural integrity and aesthetically pleasing finishes achieved in modern earth construction, it is now one of the leading choices for sustainable, low-energy building. Modern earth buildings provides an essential exploration of the materials and techniques key to the design, development and construction of such buildings.Beginning with an overview of modern earth building, part one provides an introduction to design and construction issues including i
