Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Title page; Copyright page; Contents; Foreword; Introduction; Acknowledgements; The Planet Savers;; Index of Planet Savers; Index of organisations; Photo credits; About the author
Sommario/riassunto	"Protecting the planet is everyone's work. But we all have our own heroes in whatever area we are working. Planet Savers brings together the varied stories of the hundreds of movers and shakers that have spoken up throughout history and taken action to defend the world from pollution, deforestation, species loss and climate change.? From Theodore Roosevelt to Al Gore; from Francis of Assisi to David Attenborough - and from hundreds more men and women that you will know little, if anything, about. Scientists, artists, business people, priests, lawyers, poets, politicians, activists and more, from every continent of the world. Their work has enthused us about the natural world and warned us that we must do much more to preserve it. The Indian woman who became the world's first environmental martyr; the Baptist Reverend who asked "What Would Jesus Drive?"; the Quaker big game hunter who set up the first conservation organisation; the Shakespearian actor who revolutionised organic gardening; and the housewife whose campaign against toxic waste forced a President to act.? The book is a cornucopia of people who from time immemorial have put their careers, reputations and lives on the line to protect our

planet from its governing inhabitants - the human race. Today, as thousands of species of animals and plants are faced with extinction, thousands of years of indigenous knowledge is lost in the face of technological advance, and we become more and more aware of the potential doomsday scenario of a warming world, we need Planet Savers more than ever. Our inspiration can be the 301 environmental lives portrayed in this book. These people cared enough to do something about it. Planet Savers is both a tribute and a catalyst: a tribute to the people that loved the planet enough to want to act to save it, and a catalyst for the people who will be inspired to act after reading it. New Planet Savers are at work right now in rainforests and megacities; in community centres and boardrooms; at road protests and in courtrooms, all over the world. If this book has one great aim it is to inspire you, the reader, to join them. It is a book that every home should own."--Provided by publisher.
