Peterson -- The Rio de la Plata and Anglo-American political and social models, 1810-1827 / Beatriz Davilo -- The Atlantic worlds of David Hume / Emma Rothschild.

Sommario/riassunto

Drawn together in a comprehensive Introduction by Bernard Bailyn, these innovative essays include analyses of the climate and ecology that underlay the slave trade, pan-Atlantic networks of religion and commerce, as well as the inter-ethnic collaboration in the development of tropical medicine, science as a product of imperial relations, and the awareness of the Atlantic world in the mind of David Hume.
