Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Simultaneously published in the USA and Canada"--T.p. verso.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Book Cover; Title; Contents; Foreword by Professor Anthony Clare; Preface; Acknowledgements; The legacy and appearance of hospital buildings; Landscape, gardens and the space between the buildings; Principles of interior renovation: the role of the interior designer; Departmental components of the average hospital: from reception to chapels; Interior features: from floors to furniture; Colour and other factors; Arts and decoration: from high art to humble memorabilia; The human factor; Professional appointments: the 'design team'; Fundraising; Index
Sommario/riassunto	Healing the Hospital Environment identifies why many healthcare premises do not look or feel welcoming and why even well-intentioned efforts to make improvements are unsuccessful. The authors show that significant improvements can be made within limited resources if hospitals recognise what can be achieved, set standards and invest in the relevant design expertise. It gives a wide range of examples of effective improvement in design, maintenance and management of all types of hospital and healthcare premises and their surrounding land.
