

1. Record Nr.	UNINA9910807928203321
Titolo	Mammals of China / / Andrew T. Smith and Yan Xie, editors ; Robert S. Hoffmann [and four others], contributing authors ; Federico Gemma, illustrator ; Wang Sung, honorary editor
Pubbl/distr/stampa	Princeton, NJ, : Princeton University Press, c2013 Princeton, New Jersey : , : Princeton University Press, , 2013
ISBN	1-299-24169-7 1-4008-4688-9
Edizione	[Course Book]
Descrizione fisica	1 online resource (395 pages) : illustrations (chiefly color), color maps
Collana	Princeton pocket guides
Disciplina	599.0951
Soggetti	Mammals - China China
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"An outgrowth of the earlier comprehensive A guide to the mammals of China (Smith and Xie 2008)"--Pref.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Frontmatter -- Contents -- List of Figures -- List of Maps -- List of Habitat Images -- Preface / Smith, Andrew / Yan, Xie -- Contributors -- Introduction -- Acknowledgments -- CLASS MAMMALIA-The Mammals -- ORDER PROBOSCIDEA -- ORDER SIRENIA -- ORDER SCANDENTIA -- ORDER PRIMATES-Primates -- ORDER RODENTIA-Rodents -- ORDER LAGOMORPHA-Pikas, Rabbits, and Hares -- ORDER ERINACEOMORPHA -- ORDER SORICOMORPHA-Shrews and Moles -- ORDER CHIROPTERA-Bats -- ORDER PHOLIDOTA -- ORDER CARNIVORA-Carnivores -- ORDER PERISSODACTYLA -- ORDER ARTIODACTYLA-Even-toed Ungulates -- ORDER CETACEA-Whales, Porpoises, and Dolphins -- APPENDIX I: Cetaceans Found off the Coast of China -- APPENDIX II: Hypothetical Mammals -- APPENDIX III: Introduced Alien, Feral, or Free-ranging Domestic Mammals -- GLOSSARY -- FURTHER READING -- Index to Scientific Names -- Index to Common Names
Sommario/riassunto	China's breathtaking diversity of natural habitats--from mountains and deserts to grasslands and lush tropical forests--is home to more than 10 percent of the world's mammal species. This one-of-a-kind pocket guide describes the characteristics, geographic distribution, natural

history, and conservation status of all 558 species of mammals found in China. An up-to-date distribution map accompanies each species account, and beautiful color illustrations by wildlife artist Federico Gemma depict a majority of the species. The definitive text is written by leading specialists and follows the most current global standards for mammalian systematics. This field-ready pocket edition of *A Guide to the Mammals of China* makes the rich mammal fauna of China accessible to ecotravelers and naturalists like never before. The comprehensive pocket guide to all of China's 558 mammal species Describes the physical characteristics, geographic distribution, natural history, and conservation status of every species Features up-to-date distribution maps and stunning color illustrations throughout Written by a team of leading specialists
