Sommario/riassunto	A keen analysis of how and why countries bargain together in groups in world affairs, and why such coalitions are crucial to individual developing nations. It also reveals the effects these negotiating blocs are having on world affairs. Successful coalition building has proven to be a difficult and expensive process. Allies are often not obvious and need to be carefully identified. Large numbers do not necessarily entail

a proportionate increase in influence. And the weak have the choice of teaming up against or jumping on the bandwagon with the strong. Even after it has been
