Nota di contenuto	A framework for genealogical evolution -- Economic conditions at the time of founding and the founding parents of the genealogies -- Genealogies in the making : the process and structure of their evolution -- Founding and genealogical evolution.
Sommario/riassunto	The Evolution of a New Industry traces the emergence and growth of the Israeli hi-tech sector to provide a new understanding of industry evolution. In the case of Israel, the authors reveal how the hi-tech sector built an entrepreneurial culture with a capacity to disseminate intergenerational knowledge of how to found new ventures, as well as an intricate network of support for new firms. Following the evolution of this industry from embryonic to mature, Israel Drori, Shmuel Ellis, and Zur Shapira develop a genealogical approach that relies on looking at the sector in the w
