ISBN	981-5011-21-9
Descrizione fisica	1 online resource (52 pages)
Altri autori (Persone)	ErnMichelle Li OoiJuin Yan
Soggetti	SOCIAL SCIENCE / Sociology / Urban
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Frontmatter -- FOREWORD -- EXECUTIVE SUMMARY -- 1. INTRODUCTION -- 2. SOUTHEAST ASIAN BIODIVERSITY -- 3. ASSESSMENT OF URBAN GREEN SPACE LOSS IN GREATER BANDUNG, INDONESIA AND GREATER KUALA LUMPUR MALAYSIA -- 4. NATURE-BASED SOLUTIONS AND APPLICATIONS IN BANDUNG AND KUALA LUMPUR -- 5. WAY FORWARD
Sommario/riassunto	Rapid urbanization and development in Southeast Asia have impacted its high biodiversity and unique ecosystems, directly through the use of forest lands for infrastructure building, and indirectly through increasing ecological footprints. In Greater Bandung, Indonesia and Greater Kuala Lumpur, Malaysia, rapid urbanization over the last thirty years has resulted in an increase in built infrastructure of approximately two and three times respectively. A Nature-Based Solutions approach can potentially underpin urban design and planning strategies in Greater Bandung and Greater Kuala Lumpur, as well.
