Sommario/riassunto	Hauptbeschreibung This survey investigates and evaluates the legal framework which an engineer faces when stepping into an ARGE partnership with other planning offices. ARGE, in the German construction industry an established form of partnership, becomes

more and more important in acquiring and accomplishing construction projects. The ARGE underlies the regulations of the German Partnership under Civil Law; consequently, the ARGE partners are jointly and individually liable for the contract. Thus the principal of the overall project enjoys fundamental advantages: He reduces his risk should it
