

1.	Record Nr.	UNINA9910133175903321
	Titolo	2013 IEEE seventh International Conference on Software Security and Reliability Companion : 18-20 June 2013
	Pubbl/distr/stampa	New York : , : IEEE, , 2013
	ISBN	1-4799-2925-5
	Descrizione fisica	1 online resource (236 pages)
	Soggetti	Computers - Reliability Computer security
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910808327803321
	Titolo	Oral bioavailability : basic principles, advanced concepts, and applications // edited by Ming Hu, Xiaoling Li
	Pubbl/distr/stampa	Hoboken, NJ, : John Wiley & Sons, c2011
	ISBN	9786613257765 9781283257763 1283257769 9781118067581 1118067584 9781118067598 1118067592 9781118067529 1118067525
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (570 p.)
	Collana	Wiley series in drug discovery and development
	Altri autori (Persone)	HuMing, Ph. D. LiXiaoling <1957->
	Disciplina	615/.19
	Soggetti	Drugs - Bioavailability Drug development Intestinal absorption

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	<p>ORAL BIOAVAILABILITY; CONTENTS; Foreword; Preface; Contributors; 1 Barriers to Oral Bioavailability-An Overview; 2 Physicochemical Characterization of Pharmaceutical Solids; 3 Solubility of Pharmaceutical Solids; 4 In Vitro Dissolution of Pharmaceutical Solids; 5 Biological and Physiological Features of the Gastrointestinal Tract Relevant to Oral Drug Absorption; 6 Absorption of Drugs via Passive Diffusion and Carrier-Mediated Pathways; 7 In Vitro-In Vivo Correlations of Pharmaceutical Dosage Forms; 8 Drug Metabolism in Gastrointestinal Tract</p> <p>9 Efflux of Drugs via Transporters-The Antiabsorption Pathway 10 Liver Drug Metabolism; 11 Protein Binding of Drugs; 12 Urinary Excretion of Drugs and Drug Reabsorption; 13 Pharmacokinetic Behaviors of Orally Administered Drugs; 14 Effects of Food on Drug Absorption; 15 Drug-Drug Interactions and Drug-Dietary Chemical Interactions; 16 Anatomical and Physiological Factors Affecting Oral Drug Bioavailability in Rats, Dogs, and Humans; 17 Amino Acid Drug Transporters; 18 Drug Transporters and Their Role in Absorption and Disposition of Peptides and Peptide-Based Pharmaceuticals</p> <p>19 Organic Anion and Cation Drug Transporters 20 Gastric Retentive Drug Delivery Systems; 21 Lipid-Based and Self-Emulsifying Oral Drug Delivery Systems; 22 Prodrug Strategies to Enhance Oral Drug Absorption; 23 Oral Delivery of Protein/Peptide Therapeutics; 24 ABC Transporters in Intestinal and Liver Efflux; 25 Interplay Between Efflux Transporters and Metabolic Enzymes; 26 Regulatory Considerations in Metabolism- and Transporter-Based Drug Interactions; 27 Caco-2 Cell Culture Model for Oral Drug Absorption; 28 MDCK Cells and Other Cell-Culture Models of Oral Drug Absorption</p> <p>29 Intestinal Perfusion Methods for Oral Drug Absorptions 30 Liver Perfusion and Primary Hepatocytes for Studying Drug Metabolism and Metabolite Excretion; 31 In vivo Methods for Oral Bioavailability Studies; 32 Determination of Regulation of Drug-Metabolizing Enzymes and Transporters; 33 Computational and Pharmacoinformatic Approaches to Oral Bioavailability Prediction; Index</p>
Sommario/riassunto	<p>Understand and assess the design, delivery, and efficacy of orally administered drugs A practical guide to understanding oral bioavailability, one of the major hurdles in drug development and delivery, Oral Bioavailability: Basic Principles, Advanced Concepts, and Applications is designed to help chemists, biologists, life science researchers, pharmaceutical scientists, pharmacologists, clinicians, and graduate and students become familiar with the fundamentals and practices of the science of oral bioavailability. The difference in rate and extent between a drug taken orally and the a</p>
