

1. Record Nr.	UNINA9910808402303321
Autore	Roach E. S (Ewell Steve)
Titolo	Toole's cerebrovascular disorders // E. Steve Roach, Kerstin Bettermann, Jose Biller [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2010
ISBN	1-316-08806-5 1-139-81416-8 1-139-85503-4 1-139-85531-X 1-139-85540-9 1-299-40005-1 1-139-85513-1 1-139-64423-8 1-139-85522-0
Edizione	[Sixth edition.]
Descrizione fisica	1 online resource (xi, 408 pages) : digital, PDF file(s)
Altri autori (Persone)	TooleJames F. <1925-2021.>
Disciplina	616.8/1
Soggetti	Cerebrovascular disease
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	A history of cerebrovascular disease since the Renaissance -- Interview and examination -- Syndromes of vascular dysfunction -- Pathophysiology of ischemic stroke -- Diagnostic evaluation of stroke -- Transient ischemic attacks -- Atherosclerosis of the cervicocranial arteries -- Embolism and stroke -- Lacunar strokes and hypertensive encephalopathy -- Inflammatory angiopathies and stroke -- Hematological disorders and hypercoagulable states -- Arterial dissection -- Moyamoya and other vasculopathies -- Migraine and related disorders -- Vascular dementia -- Intracerebral hemorrhage -- Subarachnoid hemorrhage and aneurysms -- Intracranial vascular malformations -- Subdural and epidural hematomas -- Sinovenous occlusion -- Genetics of cerebrovascular disease -- Stroke in children -- Stroke in pregnancy -- Vascular diseases of the spinal cord -- Management of acute ischemic infarction -- Neurorehabilitation following stroke.

## Sommario/riassunto

Toole's Cerebrovascular Disorders was the first modern book devoted to care of the stroke, originally published more than 40 years ago. This is a completely revised and updated sixth edition of the highly respected standard for stroke diagnosis and treatment. Dr James Toole has stayed on as a consultant for the text, and Drs E. Steve Roach, Kerstin Bettermann, and Jose Biller have reworked Dr Toole's book to include chapters on genetics, pregnancy-related stroke, and acute treatments. The practical focus of the book has not changed, retaining its emphasis on bedside diagnosis and treatment. Easily accessible both for stroke specialists and residents, the sixth edition has been modernized to keep pace with the rapid expansion of knowledge in stroke care and includes evidence-based recommendations, the latest technology and imaging, and risk factors. The text is supplemented with more than 200 images, many in color.
