Sommario/riassunto

In the World Library of Educationalists series, international experts themselves compile career-long collections of what they judge to be their finest pieces - extracts from books, key articles, salient research findings, major theoretical and/practical contributions - so the world can read them in a single manageable volume. Michael A. Peters has spent the last 30 years researching, thinking and writing about some of the key and enduring issues in education. He has contributed over 60 books (authored, co-authored and edited) and 500 articles to the field. In Education, Ph
