Sommario/riassunto	From Mastery to Mystery is an original and provocative contribution to the burgeoning field of ecophenomenology. Informed by current debates in environmental philosophy, Bannon critiques the conception of nature as "substance" that he finds tacitly assumed by the major environmental theorists. Instead, this book reconsiders the basic goals of an environmental ethic by questioning the most basic presupposition that most environmentalists accept: that nature is in need of preservation. Beginning with Bruno Latour's idea that continuing to speak of nature in the way we popularly conceive of it
