

1. Record Nr.	UNINA9910808561803321
Titolo	Improving the Air Force Scientific Discovery Mission : leveraging best practices in basic research management : a workshop report // Committee on Improving the Air Force Scientific Discovery Mission: Leveraging Best Practices in Basic Research Management: A Workshop, Air Force Studies Board, Division on Engineering and Physical Sciences, The National Academies of Sciences, Engineering, Medicine
Pubbl/distr/stampa	Washington, DC : , : The National Academies Press, , [2015] ©2015
ISBN	0-309-37833-8 0-309-37831-1
Descrizione fisica	1 online resource (xii, 46 pages) : illustration
Disciplina	358.4/070973
Soggetti	Aeronautics, Military - Research - United States Information technology - Military aspects - Research - United States Information networks - Military aspects - Research - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Context for the Workshop -- Workshop Participant Observations and Key Themes -- Synopsis of Workshop Sessions -- Appendix A: Terms of Reference -- Appendix B: Biographical Sketches of Committee Members -- Appendix C: Workshop Sessions and Speakers -- Appendix D: Excerpt from the Carl Levin National Defense Authorization Act for Fiscal Year 2015.
Sommario/riassunto	"In 2014, the Air Force Studies Board conducted two workshops to review current research practices employed by the Air Force Office of Scientific Research (AFOSR). Improving the Air Force Scientific Discovery Mission summarizes the presentation and discussion of these two workshops. This report explores the unique drivers associated with management of a 6.1 basic research portfolio in the Department of Defense and investigates current and future practices that may further the effective and efficient management of basic research on behalf of the Air Force." --
