Note generali Nota di bibliografia Includes bibliographical references and index. Nota di contenuto Music and May '68 -- Genre and musical representations of May '68 --Free jazz in France -- La cause du pop -- Contemporary music, animation, and cultural democratization. In May 1968, France teetered on the brink of revolution as a series of Sommario/riassunto student protests spiraled into the largest general strike the country has ever known. In the forty years since, May '68 has come to occupy a singular place in the modern political imagination, not just in France but across the world. Eric Drott examines the social, political, and cultural effects of May '68 on a wide variety of music in France, from the initial shock of 1968 through the "long" 1970's and the election of Mitterrand and the socialists in 1981. Drott's detailed account of how diverse music communities developed in response to 1968 and his pathbreaking reflections on the nature and significance of musical genre come together to provide insights into the relationships that link

music, identity, and politics.
