

1. Record Nr.	UNINA9910808690603321
Titolo	Current management in child neurology // Bernard L. Maria [editor]
Pubbl/distr/stampa	Shelton, CT, : People's Medical Publishing House Maidenhead, : McGraw Hill Education [distributor], 2009
ISBN	1-282-27440-6 9786612274404 1-60795-064-2 1-60795-091-X
Edizione	[4th ed.]
Descrizione fisica	1 online resource (822 p.)
Altri autori (Persone)	MariaBernard L
Disciplina	618.928
Soggetti	Pediatric neurology Internal medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Title and Frontmatter -- Contributors -- Preface -- Contents -- Section 1: Clinical Practice Trends -- 1. Common Neurologic Complaints and Conditions -- 2. Managing Common Neurological Disorders: Role of the Primary Care Practitioner -- 3. The Neurologic Examination -- 4. Neurodiagnostic Tests: Their Indication and Selection -- 5. Child Neurology Education of Medical Students, Pediatricians, and Adult Neurologists -- 6. The Internet in Child Neurology -- 7. Excelling at the Art of Medicine -- 8. A Primer on Practice Management -- Section 2: The Office Visit -- Headache -- 9. Migraine in Children and Adolescents -- 10. Migraine Variants and Mimics -- 11. Abortive Therapy for Migraine -- 12. Preventative Therapy for Pediatric Migraine -- 13. Chronic Daily Headache -- 14. Psychosocial Aspects of Pediatric Headache -- 15. Biofeedback for Childhood Migraine -- 16. Current Pharmacotherapy for Pediatric Migraine -- Seizures and Epilepsy -- 17. What Is Epilepsy? -- 18. Febrile Seizures -- 19. First Unprovoked Seizure -- 20. Staring Spells -- 21. Partial Seizure -- 22. Generalized Seizures -- 23. First-Choice Antiepileptic Drugs -- 24. Home Management of Breakthrough Seizures -- 25. Management of Infantile Spasms (West Syndrome) -- 26. Recurrent Seizures -- 27.

Discontinuing Anti-Epileptic Drugs in Childhood Epilepsy -- 28. Paroxysmal, Nonepileptic Disorders of Childhood -- 29. The Ketogenic Diet -- 30. Epilepsy Surgery and Cortical Stimulation -- 31. Pediatric Epilepsy: Comorbidity and Quality of Life -- 32. Psychosocial Challenges of Epilepsy in Adolescence -- 33. Epileptic Encephalopathy -- 34. Current Pharmacotherapy for Pediatric Seizures and Epilepsy -- 35. Neurologic Assessment of Behavioral Disorders -- Neurobehavioral Disorders -- 36. Clinical Evaluation of Attention Deficit-Hyperactivity Disorder.

37. Comorbidity and Symptom Mimicry in ADHD: Implications for Assessment and Treatment -- 38. ADHD Psychosocial Intervention: Parent Training and Social Skills Training -- 39. Treatment of ADHD: Individual Child and Family-Based Therapies -- 40. The Role of the Pediatric Neurologist in the Management of ADHD -- 41. Current Pharmacotherapy for ADHD -- 42. Is My Child Ready for School? -- 43. An Introduction to Pediatric Neuropsychological Evaluation -- 44. Speech and Language Development and Disorders -- 45. Learning Disabilities -- 46. Development Dyspraxia -- Developmental Delay -- 47. Diagnostic Approach to Developmental Delay -- 48. Children at Risk: Social Disadvantage and Neurodevelopmental Functioning -- 49. Cerebral Palsy -- 50. Spastic Paresis -- 51. Neurodegenerative Disorders -- 52. Mitochondrial Cytopathies -- 53. Mental Retardation -- 54. Down Syndrome -- 55. Other Chromosomal Disorders -- 56. Rett Syndrome -- 57. Inborn Errors of Metabolism -- 58. Autistic Spectrum Disorders -- 59. Child Abuse and Neglect: Issues for Neurologists -- 60. Rehabilitation: The Role of Occupational Therapy and Physical Therapy -- Other Neurological Complaints and Conditions -- 61. Small, Large, or Abnormally Shaped Head -- 62. Microcephaly-- Acquired -- 63. Sleep Disturbances -- 64. Breath-Holding Spells -- 65. HIV-1/AIDS in Infants and Children -- 66. Bell's Palsy -- 67. Management of Dizziness in Children -- 68. Fainting and Syncope -- 69. Spinal Muscular Atrophy -- 70. Heredity Neuropathy -- 71. Neuromuscular Junction Disorders -- 72. Muscular Dystrophy and Myopathy -- 73. Pediatric Neurotransmitter Disorders -- 74. Ataxia, Clumsiness, and Tremor -- 75. Treatment of Tic Disorders -- 76. Paroxysmal Movement Disorders -- 77. Chorea -- 78. Visual System Problems -- 79. Childhood Depression -- 80. Conversion Reaction -- 81. Neurofibromatosis.

82. Tuberous Sclerosis Complex -- 83. Sturge-Weber Syndrome -- 84. Hypomelanosis of Ito -- 85. Brainstem and Cerebellar Malformations -- 86. Acquired Demyelination of the Central Nervous System -- Section 3: The Hospitalized Child -- 87. Neurologic Conditions Arising From Tropical and Subtropical Regions -- 88. Neonatal Seizures -- 89. Facial Dysmorphism in the Neonate and Infant -- 90. Status Epilepticus -- 91. Meningitis and Encephalitis -- 92. Traumatic Brain and Spinal Cord Injuries in Children -- 93. Neonatal Hypotonia -- 94. Congenital Muscular Dystrophies -- 95. Injury to the Preterm Brain -- 96. Injury to the Term Brain -- 97. Birth Brachial Plexus Palsy -- 98. Altered States of Consciousness -- 99. Increased Intracranial Pressure -- 100. Evaluation and Management of Acute Headache -- 101. Brain and Spinal Cord Tumors -- 102. Pseudotumor Cerebri: Idiopathic Intracranial Hypertension -- 103. Central Nervous System Vascular Malformations -- 104. Pediatric Intracranial Aneurysms -- 105. Stroke and Cerebrovascular Disease -- 106. Vasculitis -- 107. Guillain-Barre Syndrome -- 108. Neural Tube Defects and Spinal Dysraphism -- 109. Neurocognitive Complications of Sickle Cell Disease -- 110. Pain Management -- 111. Brain Death in Children -- Index.
