

1. Record Nr.	UNINA9910808730803321
Titolo	Pharmacogenetics of psychotropic drugs // edited by Bernard Lerer
Pubbl/distr/stampa	Cambridge, UK ; ; New York, : Cambridge University Press, 2002
ISBN	1-107-13115-4 1-280-15491-8 9786610154913 0-511-11971-2 0-511-04173-X 0-511-14836-4 0-511-33030-8 0-511-54394-8 0-511-04410-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (x, 446 pages) : digital, PDF file(s)
Altri autori (Persone)	LererBernard
Disciplina	615/.788
Soggetti	Psychotropic drugs Pharmacogenetics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Half-title; Title; Copyright; Contents; Contributors; Part I Introduction; Part II Clinical background and research design; Part III Molecular background; Part IV Pharmacokinetics; Part V Specific psychotropic drugs and disorders; Part VI Pharmacogenetics and brain imaging; Part VII Industrial perspectives; Index
Sommario/riassunto	Pharmacogenetics and pharmacogenomics are areas of significant importance at the interface of molecular genetics and psychopharmacology, with implications for drug development and clinical practice. This 2002 book provides a conceptual framework for understanding and studying the pharmacogenetics of psychotropic drugs, reviews advances in the field, and describes the established findings. Coverage extends to antipsychotics, antidepressants, mood stabilising, cognitive-enhancing and anxiolytic drugs. Chapters also examine the interface of pharmacogenetics with substance dependence

and brain imaging, and consider its impact on the biotechnology and pharmaceutical industries. This book defines the young field of pharmacogenetics as it applies to psychotropic drugs, and is therefore of interest to all clinicians and researchers working in this field.
