Sommario/riassunto

The debates on regionalism have been polarized between European Union (EU) scholars and non-EU scholars, with the assumption being that regionalism within the EU and other regions of the world are quite distinct, with little to be learnt from dialogue with each other. This book challenges such assumptions and calls for a genuine debate between scholars of regionalism. This book demonstrates that more can and needs to be learned about regional integration all over the world through comparison and reflection on specific regional trends. Beginning with a theoretically driven introduction
