Beyond Treatment: Peer and Ecological Accompaniment -- Seven. Pathways Through Mutual Accompaniment to Solidarity -- Eight. Nonhuman Animal Accompaniment -- Nine. Earth Accompaniment: Standing with Trees, Waters, Mountains, Earth, and Air -- Ten. Mutual Accompaniment and the Commons-to-Come -- Notes -- Acknowledgments -- Index
Sommario/riassunto	A landmark book that maps a radical model not only for the "helping" professions but for the work of solidarity This timely and pathbreaking volume maps a radical model of accompaniment, exploring its profound implications for solidarity. Psychosocial and ecological accompaniment is a mode of responsive assistance that combines psychosocial understanding with political and cultural action. Accompaniment-grounded in horizontality, interdependence, and potential mutuality-moves away from hierarchical and unidirectional

helping-profession approaches that decontextualize suffering. Watkins envisions a powerful paradigm of mutual solidarity with profound implications for creating commons in the face of societal division and indifference to suffering.
