Spiritual Pathways within Christianity ; 10. Spiritual Pathways within Islam -- Part V The Common Elements of Life-Giving Spiritualities: 11. Finding a Spiritual Pathway -- Bibliography -- Index.
Sommario/riassunto	"This book is an insightful guide to the diverse ways that religious faith is practiced and spirituality is understood. Discussing contemporary issues such as post-modernism and the emergence of a "new paradigm," the new realities of geopolitics, globalization and global warming, this book explores the importance of religion in people's lives to provide direction in the society today. This book demonstrates the common quest among the world religions for a deeper and more

profound spirituality. Describing the spiritual pathways of the various world religions, it assesses the ways that the beliefs, values and practices of these traditions can be life-giving, leading to personal and social responsibility and transformation, but also sometimes harmful and divisive, even used for dangerous purposes. Promoting constructive engagements between the world's religions, this book will connect social justice and ethical engagements with core religious practices and spiritualities. This is an ideal introductory text for students of world religions, spirituality and interfaith relations, broadening their understanding of these lived faiths."--Bloomsbury Publishing.
