Sommario/riassunto	This book examines the experiences of relatives of those accused or convicted of serious crimes such as murder, manslaughter, rape and sex offences. A broader literature exists on prisoners' families, but few studies have looked specifically at those related to serious offenders, or considered their experience other than as prison visitors. Many of the difficulties faced by 'mundane' prisoners' families are magnified for the

relatives of serious offenders, first by the length of sentence, and secondly by the seriousness and stigmatizing impact through association of the offence itself. <BR
