Preston -- World wide brain : self-organizing Internet

intelligence as the actualization of the collective unconscious / Ben Goertzel -- The coevolution of technology and consciousness / Jayne Gackenbach, Greg Guthrie, and Jim Karpen.

Sommario/riassunto

The previous edition provided the first resource for examining how the Internet affects our definition of who we are and our communication and work patterns. It examined how normal behavior differs from the pathological with respect to Internet use. Coverage includes how the internet is used in our social patterns: work, dating, meeting people of similar interests, how we use it to conduct business, how the Internet is used for learning, children and the Internet, what our internet use says about ourselves, and the philosophical ramifications of internet use on our definitions of reality and c
