

1. Record Nr.	UNINA9910809059603321
Titolo	Surface mining // edited by B.A. Kennedy
Pubbl/distr/stampa	Littleton, Colo. : , : Society for Mining, Metallurgy, and Exploration, Inc., [1990] ©1990
ISBN	9780873353038 1-61344-058-8 0-87335-303-X
Edizione	[2nd edition.]
Descrizione fisica	1 online resource (xi, 1194 pages) : illustrations
Disciplina	622/.292
Soggetti	Mines - Direcció i administració Mines - Explotació a cel obert Mines - Valoració Enginyeria de mines Exploracions mineres Strip mining Mining engineering Prospecting Mine valuation Mine management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Title; Preface; Contributors; Contents; CHAPTER 1: Introduction; CHAPTER 2: Exploration and Geology Techniques; CHAPTER 3: Ore Reserve Estimation; CHAPTER 4: Feasibility and Project Financing; CHAPTER 5: Planning and Design of Surface Mines; CHAPTER 6: Mine Operations; CHAPTER 7: Mine Capital and Operating Costs; CHAPTER 8: Management and Organization; CHAPTER 9: Caste Studies; Index
Sommario/riassunto	This SME classic is both a reference book for the working engineer and a textbook for the mining student. This hard cover edition gives a brief history of surface mining and a general overview of the state of surface mining today - topics range from production and productivity to

technological developments and trends in equipment. This useful text takes the approach that exploration and mining geologists must be expert in a number of fields, including basic finance and economics, logistics, and pragmatic prospecting.
