

1. Record Nr.	UNINA9910809074303321
Autore	McKitterick David
Titolo	Old books, new technologies : the representation, conservation and transformation of books since 1700 // David McKitterick [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2013
ISBN	1-107-35811-6 1-107-23850-1 1-107-34474-3 1-107-34942-7 1-107-34849-8 1-107-34599-5 1-107-34224-4 1-139-56563-X
Descrizione fisica	1 online resource (x, 286 pages) : digital, PDF file(s)
Classificazione	LAN027000
Disciplina	070.5
Soggetti	Books - Conservation and restoration - History Book industries and trade - Technological innovations Publishers and publishing - Technological innovations Book industries and trade - History Publishers and publishing - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The past in pixels -- Restoration and invention -- Conservation, counterfeiting and bookbinding -- Representation and imitation -- From copying to facsimile -- The arrival of photography -- Public exhibition -- The Caxton exhibition of 1877 -- A bibliographical and public revolution -- Conclusion.
Sommario/riassunto	As we rely increasingly on digital resources, and libraries discard large parts of their older collections, what is our responsibility to preserve 'old books' for the future? David McKitterick's lively and wide-ranging study explores how old books have been represented and interpreted from the eighteenth century to the present day. Conservation of these

texts has taken many forms, from early methods of counterfeiting, imitation and rebinding to modern practices of microfilming, digitisation and photography. Using a comprehensive range of examples, McKitterick reveals these practices and their effects to address wider questions surrounding the value of printed books, both in terms of their content and their status as historical objects. Creating a link between historical approaches and the emerging technologies of the future, this book furthers our understanding of old books and their significance in a world of emerging digital technology.
