

1. Record Nr.	UNINA9910809111803321
Autore	Mosley Stephen
Titolo	The environment in world history // Stephen Mosley
Pubbl/distr/stampa	Milton Park, Abingdon, Oxon ; ; New York : , : Routledge, , 2010
ISBN	1-135-16472-X 1-135-16473-8 1-282-57176-1 9786612571763 0-203-85953-7
Descrizione fisica	1 online resource (136 p.)
Collana	Themes in world history
Disciplina	304.2
Soggetti	Human ecology - History Nature - Effect of human beings on - History World history Human ecology Nature - Effect of human beings on
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Simultaneously published in the USA and Canada"--Title page verso.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: Environment and history -- The world hunt -- Forests and forestry -- Soils and irrigation -- Cities and the environment -- Conclusion: Beyond the limits?
Sommario/riassunto	"Covering the past 500 years of global history, The Environment in World History examines the processes that have transformed the earth and have put growing pressure on natural resources." "The Environment in World History also examines how European expansion overseas brought about a fundamental reorganisation of the world's ecology as contact between long-isolated continents was re-established. It offers a fresh environmental perspective on familiar world-history narratives of imperialism and colonialism, trade and commerce, and technological progress and the advance of civilisation, and will be invaluable reading for all students of world history and environmental studies."
