Nota di contenuto	Contents; Preface; 1 Extending the Principles and Promise of Scholarly Communication Reform; 2 "Free" to All; 3 Making a Virtue Out of Necessity; 4 Open Access and Closed Minds?; 5 "When We're Done with It, We Don't Care What Happens to It"; 6 Agents of Diversity and Social Justice; 7 Opportunities through Open Access; 8 Navigating the Political Waters of Open Access Publishing in Libraries; 9 Infrastructure for Open Access; 10 The Ethics and Evolution of Library Information Sharing; 11 Open Access, Digital Preservation, and the Changing Scholarly Record 12 Developing New Publishing Service Models at an Undergraduate College13 Metadata Standards for Open Access Repositories; 14 Research Management; Index; About the Editors and Contributors
Sommario/riassunto	This volume of Creating the 21st-Century Academic Library looks closely at issues of policy and infrastructure for libraries that wish to provide leadership on their campus in the transition to more open forms of scholarship. The authors discuss how to make the case for open access on campus, as well as the political and policy implications of libraries that themselves want to become publishing entities.
