

1. Record Nr.	UNINA9910809158703321
Titolo	Ecological technologies for industrial wastewater management : petrochemicals, metals, semi-conductors, and paper industries // edited by Victor M. Monsalvo, PhD
Pubbl/distr/stampa	Oakville, Ontario : , : Apple Academic Press, , [2016] ©2016
ISBN	0-429-15587-5 1-77188-286-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (299 p.)
Disciplina	628.1/683 628.3
Soggetti	Industrial water supply Water quality management Water conservation Effluent quality
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Part I. Industrial petrochemicals -- Part II. Metal industries -- Part III. Semi-conductor industry -- Part IV. Pulp and paper industries -- Part V. Conclusion.
Sommario/riassunto	Water is essential to our planet's life, and protecting our water resources is a prerequisite for building a sustainable future. Since water use is inextricably linked to energy use, however, we face significant challenges. Water plays an essential role in many, if not most, manufacturing facilities. In a world facing a water-scarcity crisis, much research and development currently focuses on decreasing industries' water-use footprint. This compendium volume looks briefly at several select industries and investigates various water treatment processes for each, including microbial biotechnologi
