Soggetti	Art therapy Nervous system - Diseases - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes indexes.
Sommario/riassunto	By creating a therapeutic outlet for self-expression and processing trauma, art therapy can play a powerful role in assisting people with a brain injury or neurological condition to adjust to living with altered abilities and ways of thinking. Bringing together a wealth of expertise from specialists working with a range of conditions including epilepsy, dementia, acquired brain injury, motor neurone disease and multiple sclerosis, this book describes both the effects of the conditions and the ways in which art therapy has helped in the rehabilitation process. The book includes work with groups
