Sommario/riassunto	The twelfth edition of Who's Buying Household Furnishings, Services, and Supplies is based on unpublished data collected by the Bureau of Labor Statistics' 2013 Consumer Expenditure Survey. It examines how much Americans spend on their homes by the following demographics: age, income, high-income households, household type, race and Hispanic origin, region of residence, and education. The items examined in this report fall within the categories of furniture, floor coverings, household textiles, appliances, and miscellaneous household equipment such as lamps and power tools. Also included are household services (day care, housekeeping, lawn care, etc.) and household supplies (laundry detergent, toilet paper, stationery and gift wrap, etc.). Also in this edition is a unique analysis of spending before

(2000 to 2006) and after (2006 to 2013) the Great Recession.
