Sommario/riassunto	The Israeli/Palestinian conflict is the longest on-going hot-and-cold war in the 20th and 21st century. In this book the author argues that human rights standards are the key to a just and sustainable solution and that, tragically, no one has ever made serious use of them in trying to end the conflict. The reader will have a comprehensive view of the conflict, its relationship to surrounding world events, and its similarities to and differences from other conflicts, especially those embedded in American race relations.
