Sommario/riassunto	Determinants of the Death Penalty seeks to explain the phenomenon of capital punishment - without recourse to value judgements - by identifying those characteristics common to countries that use the death penalty and those that mark countries which do not. This global study uses statistical analysis to relate the popularity of the death

penalty to physical, cultural, social, economical, institutional, actor oriented and historical factors. Separate studies are conducted for democracies and non-democracies and within four regional contexts. The book also contains an in-depth investigat
