Sommario/riassunto	After the feverish mobilization of secession had faded, why did Southern men join the Confederate army? Kenneth Noe examines the motives and subsequent performance of "later enlistees." He offers a nuanced view of men who have often been cast as less patriotic and less committed to the cause, rekindling the debate over who these later enlistees were, why they joined, and why they stayed and fought. Noe refutes the claim that later enlistees were more likely to desert or perform poorly in battle and reassesses the argument that they were less ideologically savvy than their counterpart
