Titolo	The grammar of emphasis : from information structure to the expressive dimension. // Andreas Trotzke
Pubbl/distr/stampa	Boston, [Massachusetts] ; ; Berlin, [Germany] : , : De Gruyter Mouton, , 2017 ©2017
ISBN	1-5015-0586-6
Descrizione fisica	1 online resource (200 pages)
Collana	Studies in Generative Grammar, , 0167-4331 ; ; Volume 31
Disciplina	415
Soggetti	Grammar, Comparative and general - Syntax
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Preface -- Contents -- I. The notion of emphasis -- 1. Introduction -- 2. The notion of emphasis for intensity -- II. Empirical domains of emphasis -- 3. Particle topicalization and emphasis for intensity -- 4. Emphasis for intensity across clause types -- III. A unified account of emphasis -- 5. Emphasis and German clause structure -- 6. Conclusion: From information structure to the expressive dimension -- References -- Appendix A -- Appendix B -- Appendix C -- Appendix D -- Index
Sommario/riassunto	This book reconsiders the linguistic notion of emphasis. For many, the concept of emphasis is confined to information structure. However, our understanding of the grammatical reflexes of emphasis is only partial as long as the expressive side of utterances is not taken into account. The book explores similarities, differences, and interactions between information structure and the expressive dimension of language in the domain of natural language grammar. Specifically, this monograph demonstrates that specific word order options, sometimes in combination with discourse particles, yield meaning effects that are typical for the expressive side of utterances and endow them with an exclamative flavor. Approaching this issue from a syntactic point of view, the book shows that there are syntactic categories (e.g., a certain class of particle verbs) and word orders (e.g., certain fronting patterns involving discourse particles) that directly connect to expressive

meaning components. The work presented in this monograph combines theoretical analysis with experimental evidence from both perception and production studies.
