Creating the Conditions for a Counter-Hegemonic Strategy: African Languages in the Twenty-First

Sommario/riassunto

This book discusses the effects of globalization on languages in Africa. In contrast to previous studies, the contributors examine whether or not globalization is affecting African languages in the same ways and at the same rate in different countries, and how local experiences of language change vary from place to place. Rather than seeing English as the 'killer language' par excellence, the contributors probe ways in which languages are being used side by side to complement each other in some contexts while competing against European colonial languages in others. The result is a diverse canv
